Projects

Full-Stack AI Trip Planner (React, Gemini AI, Firebase, TailwindCSS)
Mar 2025 — Apr 2025

- Built a responsive, AI-powered trip planning web application with Google authentication and real-time data storage.
- Leveraged Gemini AI to dynamically generate customized itineraries, resulting in a **50% reduction in trip planning time** for users.
- Implemented an intuitive UI that simplified complex trip-planning workflows.

Multi Vendor e-Commerce (Next.js, Firebase, Postgresql, TailwindCSS)
Sept 2025 — Present

- Built full-stack digital marketplace leveraging Next.js 16, PostgreSQL, Drizzle ORM, and Stripe API.
- Developed role-based admin dashboard with comprehensive controls for user management, product CRUD operations.
- Implemented real-time customer support infrastructure with ticket management system.

Internships

Web Development, Bharat Intern, Chennai
Sept 2023 — Oct 2023

- Gained valuable hands-on experience in full-stack web development by collaborating with a team to brainstorm ideas and execute design mockups.
- Contributed to the development of a functional web interface, applying knowledge of dynamic web solutions.
